

- **MBA CET 2026: Final 30-Day Strategy to Maximize Your Score**

MBA CET 2026 is now just around the corner. With only one month left, the focus should shift from learning new concepts to **speed, strategy, and smart revision**.

Many aspirants make the mistake of trying to study everything in the last few weeks. But the truth is — **the final month is not about learning more, it is about performing better**.

In this vlog, our founder shares the **ultimate last-month preparation strategy** that every MBA CET aspirant should follow to maximize their score and improve their chances of getting into top B-schools like JBIMS, SIMSREE, and PUMBA.

Let's break down the most important insights from the session.

Understanding the Nature of MBA CET

Before planning the last month, it's important to understand the exam itself.

MBA CET is a **speed-based management entrance exam** consisting of:

- **200 Questions**
- **150 Minutes**
- No negative marking

The sections include:

- Logical Reasoning
- Abstract Reasoning
- Quantitative Aptitude
- Verbal Ability & Reading Comprehension

Because there is **no negative marking**, the strategy is very different from exams like CAT. The goal is to **attempt maximum questions with decent accuracy**.

- **The 30-Day MBA CET Strategy**

1. Focus on Mock Tests

Mocks should become the **center of your preparation** in the last month.

Instead of studying random topics, start solving **full-length mock tests regularly**.

Ideal plan:

- **3–4 mocks per week**
- Attempt mocks in **actual exam conditions**
- Track attempts, accuracy, and weak areas

Mock tests help you:

- Improve speed
- Build stamina for the 150-minute exam
- Understand your personal exam strategy

The goal is not just attempting mocks — **analysis is the real learning**.

2. Analyze Every Mock Deeply

A mock test without analysis is almost useless.

After every mock:

- Identify **which questions you got wrong**
- Understand **why you got them wrong**

- Revise the concepts behind them

Make a small **mistake notebook** where you write:

- Tricky questions
- Shortcuts
- Concepts you forgot

Revising these mistakes before the exam can significantly boost your score.

3. Strengthen Your Strong Areas

In the last month, don't chase new topics.

Instead:

- Identify your **strongest sections**
- Make sure you **maximize attempts there**

For example:

If you are strong in Logical Reasoning, aim to attempt **most questions from that section quickly and accurately**.

Starting with your strengths helps you:

- Build confidence
 - Gain momentum early in the exam
-

4. Practice Speed-Based Questions

MBA CET rewards candidates who can solve questions quickly.

Focus on practicing:

- Series
- Arrangements
- Puzzles
- Arithmetic basics
- Vocabulary and grammar questions

Solve **timed practice sets daily** to increase your solving speed.

5. Revise Shortcuts and Concepts

Instead of learning new chapters, revise:

- Important formulas
- Logical reasoning shortcuts
- Vocabulary rules
- Common puzzle types

Revision improves **accuracy and recall speed**, which is critical in CET.

6. Build Exam Stamina

Solving 200 questions in 150 minutes requires strong concentration.

Practice:

- **Full-length tests**
- **Sectional speed drills**
- Long study sessions without distractions

This helps your brain get used to the **high-intensity exam environment**.

1. Final Advice for MBA CET 2026 Aspirants

The last month before MBA CET can feel stressful, but it is also the most powerful phase of preparation.

Remember:

- Don't panic
- Focus on mocks
- Revise regularly
- Trust your preparation

A well-planned final month can make a **huge difference in your percentile**.

Stay consistent, stay confident, and keep pushing forward.

Your dream B-school might just be one smart strategy away.
