

The Top Percentile

Admin Quick Guide

Simple steps for affiliate links, notifications, site popup, coupon codes, and Klaviyo emails on
thetopperpercentile.co.in

WordPress Admin

Affiliate Hub

- Dashboard
- Affiliate Links
- Create Notification
- Site Popup
- Notifications
- TTP Dashboard
- Email Campaigns
- WooCommerce
- Marketing > Coupons

Where to find everything

Affiliate Links

Affiliate Hub → Affiliate Links

Notifications

Affiliate Hub → Create Notification

Site Popup

Affiliate Hub → Site Popup

Coupons

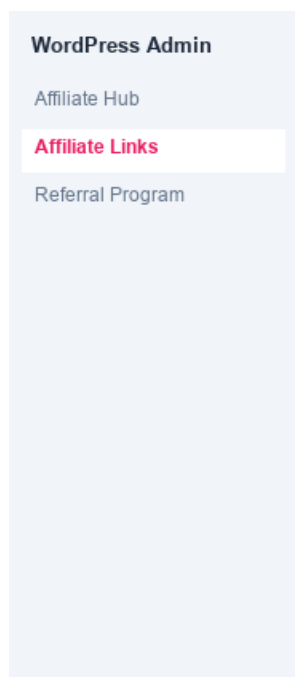

WooCommerce → Marketing → Coupons

Klaviyo

TTP Dashboard → Email Campaigns

1. Affiliate Links

- Log in to WordPress admin -> Affiliate Hub -> Affiliate Links.
- Search the user by name or email (type at least 2 characters).
- Check Enable referral program (or Mark as influencer).
- Set commission % if needed, then click Generate link.
- Copy the link and share it. Format: yoursite.com/?ref=CODE
- Members can also see their link under My Account -> Referral Link.

Create affiliate / referral link

1. Search user by name or email

2. Enable referral access + set commission %

☒ Enable referral program

Commission: 10%

Generate link

<https://thetoppercentile.co.in/?ref=ABC123>

3. Copy link: thetoppercentile.co.in/?ref=CODE

2. Notifications

- Go to Affiliate Hub -> Create Notification.
- Enter Title and Message. Add an optional link (course page, etc.).
- Choose Send to: single user, CSV file, all users, or all affiliates.
- Click Send notification - users see it in the bell icon on the site.
- View or delete past notifications: Affiliate Hub -> Notifications.
- For large sends, browser push is queued automatically in the background.

Notifications Log

Send in-app notification

Title

New course batch open

Message

Enroll before Sunday for 50% off

Send to

All users / Single user / CSV / Affiliates

Optional link

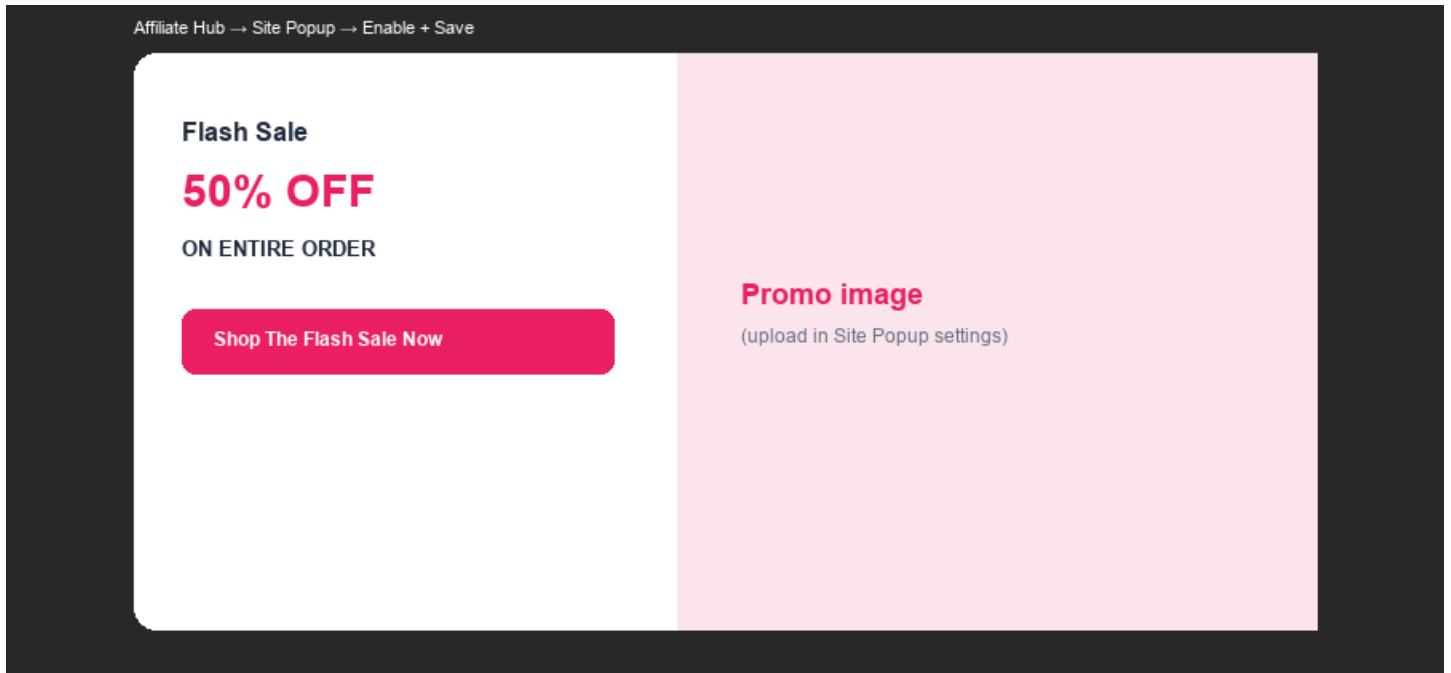

<https://thetoppercentile.co.in/shop/>

Send notification

Students see bell icon on site

3. Site Popup (Flash Sale)

- Go to Affiliate Hub -> Site Popup.
- Check Show popup on the website to turn ON (uncheck to turn OFF).
- Set headline, image, button text, button URL, and countdown date.
- Click Save popup settings, then hard-refresh the site (Ctrl+F5).
- Visitors see the popup after a short delay. X button closes it.
- Tip: point the button URL to your shop page or a coupon landing page.

4. Coupon Codes

- Go to WooCommerce -> Marketing -> Coupons -> Add coupon.
- Enter Code (e.g. FLASH50) - this is what customers type at checkout.
- Choose discount type: Percentage or Fixed cart discount.
- Set amount, optional usage limits, and expiry date.
- Publish the coupon, then share the code in popup, email, or social.
- Smart Coupons plugin adds extra options (auto-apply, BOGO) if installed.

WordPress Admin

WooCommerce

Marketing

Coupons

Create coupon code

WooCommerce → Marketing → Coupons → Add coupon

Code

FLASH50

Discount type

Percentage discount

Amount

50

Usage limit

1 per user (optional)

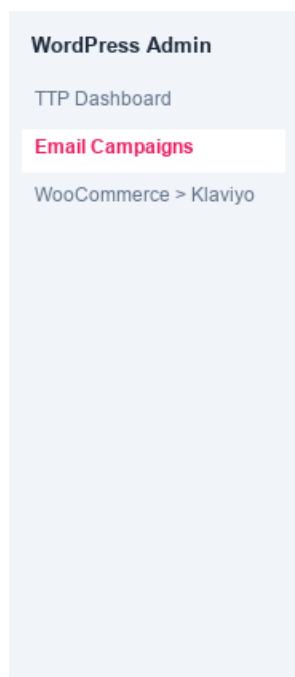

Expiry

Set end date for sale

Share code on popup button URL or social media

5. Klaviyo (Email Campaigns)

- Connect Klaviyo: WooCommerce -> Marketing -> Klaviyo -> Public API key.
- Open TTP Dashboard -> Email Campaigns (or WooCommerce -> TTP Email Campaigns).
- Click Sync all WordPress users to Klaviyo (run once for existing users).
- In Klaviyo: Audience -> Profiles to see all contacts.
- Create Flows triggered by metrics (e.g. TTP Welcome Lead, TTP Purchase).
- Personalize emails with: {{ first_name|default:'Aspirant' }}

Klaviyo email setup

1. WooCommerce → Marketing → Klaviyo → add Public API key
2. TTP Dashboard → Email Campaigns → Sync all users (one time)
3. In Klaviyo: Audience → Profiles (your contact list)
4. Create Flows using metrics like TTP Welcome Lead
5. Use {{ first_name|default:"Aspirant" }} in emails

Sync all WordPress users to Klaviyo

Metric: TTP Welcome Lead | TTP Purchase | TTP Not Started

Quick reference

Affiliate links	Affiliate Hub -> Affiliate Links
Referral members	Affiliate Hub -> Referral Members
